Camaguey, Aug 29. - The reincorporation of the students to the Máximo Gómez Báez Mixed Center and the Nicolás Guillén Batista Pedagogical School -two of the schools with the highest enrollment in Camagüey- becomes in this province the prelude to the restart of the 2019-2020 school year, which will begin its teaching work the next first of September.

As reported by sector executives in the territory, as part of the measures to protect the health of students and teachers in the new epidemiological conditions derived from COVID-19, the investigation takes place at each boarding point and at the entrance of the institutions with the presence of medical personnel.

In addition, hand washing with hypochlorite is systematized, the sanitation of the dining room and kitchen areas with the constant disinfection of surfaces and the entry of non-school personnel is prohibited.

Otras de las acciones que se ejecutan en Camagüey es la desconcentración de matrícula en los grupos, con la subdivisión de aquellas aulas de mayor número de alumnos para evitar el hacinamiento en los locales en las actuales circunstancias. **(Texto: Yamylé Fernández)**
